

# Ebba Lundgren

STUDENT / SOFTWARE  
ENGINEERING

## PROFILE

---

I am a 24-year-old ambitious and driven software engineer currently pursuing a Master's (5th year) in Information and Communication Technology at LTH in Lund. I have gained valuable experience working with Axis, Alfa Laval, Bubbi AI, and Lunicore Student Consulting, where I have sharpened my skills in software development, AI solutions, and database management.

## ACHIEVEMENTS

---

Event Manager for the Business Committee at LTH for the Data Section.

Financial Manager for the D-Chips board, an association for women and non-binary individuals in the data section at LTH.

Selected to hold the official introduction speech for approximately 300 incoming students (2024 & 2025).
